

Application for Permit to Construct a Monument and Construction Record

I hereby apply for the permit below (✓ *Tick one*) on this/these allotment/s.

Note: For two separate monuments an application is required for each. Only adjoining allotments covered by a continuous monument may be covered by a single application.

Erect a memorial Carry out repairs, alterations or additions Other (*Specify*) _____

Name of Applicant				
Address				Postcode
Portion	Section	Block	Allotment/s	Area
On the Grave/s of the late				<input type="checkbox"/> Reservation only

I understand that, as the Applicant:

- there are specifications and minimum standards that apply to the construction of monuments;
- the Cemeteries and Crematoria Authority may require that the monument be removed or modified if it does not meet these specifications and standards;
- I am responsible for the state of repair of the memorial and that it shall be maintained in a safe condition;
- I shall have no claim upon the Cemeteries and Crematoria Authority or its agents for any damages arising directly or indirectly from digging for a burial inside a completed monument, vandalism, theft or any other reason beyond the direct control of the Authority;
- there may be a requirement to disassemble part or all of the monument for a second burial and that this work, if required, will be undertaken at my expense; and
- this document is not a binding contract between myself and the monumental mason who will carry out this work.

Signature (Applicant)	Date

Plan of memorial

This section shall include full details of monument construction including length, width, height, joins of all components including ornaments and their dimensions, etc.

Materials to be used

Foundation	Kerb
Ledger	Headstone
Weight of completed monument including foundations and ornaments	
Drawing (generally, additional pages will be required and shall be attached to this page)	

Mason/builder please note:

Hold Points must be signed off before commencement of next stage. Cemetery staff will request that work be stopped if it is not being constructed in accordance with the approved drawing. It is the responsibility of Mason/Builder to arrange with cemetery staff to sign off each hold point – one working day should be allowed for this to occur.

Construction record (Office use)

Hold Points	Meets minimum specification	Signature and date of cemetery staff
1. Prior to commencement to identify the site	Yes / No	
2. After preparing foundations when steel is in place	Yes / No	
3. When the kerb is in place but before installation of the top slab or ledger	Yes / No	
4. Completion	Yes / No
